

	JAMES B. LANSING SOUND, INC.	MFG. IN U.S.A.
	LOS ANGELES, CALIFORNIA	SERIAL NO.
TYPE 4311WX CONTROL MONITOR		1956

A large, black, floor-standing speaker with a dark wood-grain side panel. It features a control panel with a silver knob and a red button. A small plaque is visible on the front panel. The speaker is mounted on a black metal stand.

A large, black, floor-standing speaker with a dark wood-grain side panel. It features a control panel with a silver knob and a red button. A small plaque is visible on the front panel. The speaker is mounted on a black metal stand.

A desk area in the background containing various electronic equipment. On the top shelf, there are several vacuum tube modules and a small black device. Below, on a lower shelf, is a turntable with a clear dust cover and a black device with a digital display. The desk is set against a wall with acoustic foam.

There is no legible text in the image.
